

The Extraordinary Springfield Arsenal, LLC Artillery Collection

The largest and most diverse private collection ever assembled. The collection is being sold in its entirety. *Special Note:* Because of the great deal of space that the cannons take to display, we have leased a warehouse directly across the road from our auction gallery. The cannons can be viewed by special appointment made prior to the auction by calling our office. On the days of the preview and the morning of the sale, the cannons will be available for preview at the warehouse and members of our staff will be available to assist you.

Special Note Regarding Cannon Shipments

Regarding Cannon Shipment: The successful bidder will make payment in full and at that time make arrangements through our Shipping Department on when and how they would like the cannons picked up and delivered. Pick up must be made through our company as we must make arrangements with the warehouse for accessibility.”
