

Parker Brothers
Makers
MERIDEN, CONN.

September 11, 1999

Parker shotgun, serial number 233343, was shipped on April 8, 1929. According to Parker Bros. Stock Book No. 78 it was a GHE hammerless, 20-gauge. It featured Parker Special Steel barrels with a length of 30 inches. It was built on a #0 frame. Its stock configuration was a capped pistol grip. The gun's specifications were recorded as: Length of Pull: 14 1/4", Drop at Heel: 2 5/8" and Weight: 6 pounds 7 ounces. The base price was \$123.75 including ejectors.

Parker Bros., Remington Arms and others repaired and reconfigured guns as a major part of the gun trade. Over the years this Parker may have undergone many changes to suit its owners. In the past twenty-five years concerns for restoration and preservation of the old Parkers have revitalized interest in the "Old Reliable", and today it leads the list of collectible American shotguns. The quality was built in; if it says Parker it is still the "Old Reliable".

Sincerely yours,

A handwritten signature in cursive script that reads "Ronald L. Kirby".
