To Whom It May Concern:

Stone Mountain Relics, Inc. was established in 1978 to engage in the sale, purchase and appraisal of antique military memorabilia.

Kerr Revolver, serial #9032 has been carefully examined by myself and found to be 100% original and authentic in all regards. The NRA overall condition is Excellent; 75% plus of the original bright blue finish remains on the barrel and the barrel housing 70% plus bright blue finish is present on the cylinder; case colors are gray. The stocks are near mint for condition with exceptionally bright "JS Anchor" stamping. For a Confederate imported handgun, this weapon is in exceptionally wonderful condition. The current replacement value as of December 1, 1997 is \$5,000.00.

Sincerely,

John Sexton
