Dear Sir:

Thanks for your inquiry of the 31st indicating your interest  
in one of our Monogram L. C. Smith double barrel trap guns.

The Monogram is a beautiful gun, finely engraved and with gold  
inlay work, and this grade calls for the customer's initials or  
monogram inlaid in gold on the guard.

We will furnish any reasonable dimensions on special order,  
provided we do not have in stock such a gun as you require.  
We shall look forward with interest to hearing from you again and  
we have sent you our catalogue under separate cover today. Any  
of the New York dealers will take care of you or, if you prefer,  
you may send us your specifications direct.

Yours very truly,

Mr. Wm. B. Rohde

Dear Sir:

We have your letter of June 15th and are delighted to know that the Monogram Ventilated rib gun that we made up for Abercrombie & Fitch recently was for you. We had only the initials for the Monogram--"WBR" and, of course, could not connect the order with you in that way.

While we use the different makes of shells--Western, Peters, Federal and U. S.--in testing our guns, this particular gun was tested with Western Field shells and, as we got very excellent patterns, you will probably wish to use the same shell generally. As a rule we recommend any of the standard makes of shells. The Western happens to be more expensive and, as we say, we used it in the case of your particular gun. Thank you for writing us.

Yours very truly,
