Industry, CA 91744

Dear Sir:

This is in response to your recent request for information on your Model 21, serial number W33096.

This particular gun was completed on February 3, 1983. It was built as a Custom Grade gun including 20 gauge 26" improved cylinder and modified barrels and a second set of 26" barrels choked modified and full. Both sets of barrels incorporated 3" chambers and ventilated ribs. This gun also had style 21-4 engraving and an oil finished straight grip stock with checkered wood butt and 21-A carving. The rib inscription stated "Custom Built by Winchester" and the gun itself was engraved by Nick Kusmit.

I hope the enclosed information is of assistance.

Sincerely,

U. S. REPEATING ARMS COMPANY
