#146686, W & C Scott Gunmakers, Birmingham, England: A W. C. Scott SxS Model Chatsworth 28 Bore Made about 1984 or 1985, This was Scott's highest grade boxlock in the 1980 to 1990 period, There were about 200 Model Chatsworth built and roughly 25 were 28 bores. This gun is with 25" Ejector barrels at .549 .008 & .023 (Skt.II & Full), 2 3/4" chambers, Double triggers, Scalloped action back, Rolled trigger guard edge, Carved shoulders at the knuckle of the forend, Splinter forend, Straight hand stock at 14 13/16 x 1 1/2 x 2 1/8" over a checkered butt, Cast-Off for the right hand, 5 lbs. 5 oz., 95% coverage of floral & scroll that has more depth than lower grade models, Unused initial escutcheon in the stock line, The gun retains 99% original finish relative both wood and metal and appears totally unused and unfired. The gun is cased in the original maker's canvas trunk with accessories. Abercrombie & Fitch at their Houston retail store imported this piece for inventory. The small bore English SxS game guns are getting scarce on the U.S. market.

W. & C. Scott 28 Bore - Best Grade Boxlock Model Chatsworth
