12/2/14

Your Ithaca gun, serial number 301027, is listed in the old records as a .410 caliber Model 6 Lefever. It was shipped to Bob Smith Sporting Goods Co., 89 Federal Street, Boston, Mass. on August 7, 1937. The listing in the old shop journal further lists it as having 26 inch skeet choked barrels.

The Lefever Model 6 was introduced in the fall of 1935 and was referred to as a Skeet Model. It had a single non-selective trigger and a beaver tail fore end.

Any choke could be had but there were only about 20 Model 6 .410 guns built with the barrels choked skeet and skeet. You have a rare Ithaca to be sure.

I have enclosed a copy of the original invoice as well as a copy of the page from the old journal.

I hope this information is of interest.
