CONDITION REPORT OF HOLLAND & HOLLAND 12 bore

S/K/E No. 29407.

1. Barrels excessively loose on action; requires re-jointing (and/or new bolt).
2. Safety catch somewhat stiff to push forward.
3. Barrel 'ring' test good.
4. Bores L - .732" R - .732" - in proof.
5. Barrel wall thickness - L - .028" min R - .030" min - good.
6. Bores show some small dents & rivelling
7. Ditto for the outsides plus there is an 'unusual' 'dip' on the top left barrel about 12" from breech.
8. Action, trigger plate & lock plates are re-colour hardened - o.k. but not top quality.
9. Inside components in good condition.
10. Exceptionally inferior re-stock job; wood quite considerably below level of metal in several areas; no drop-points; inside upper right horn has very thin web and it cracked due to excessive inletting depth; very little bearing on front recoil surface / back of action area for sufficient recoil absorption.

2.

HOLLAND & HOLLAND N<sup>o</sup> 23407

REPORT CONTD.

10. .... horn extensions/stabilisers have not been inlet onto wood.
11. Gun requires thorough disassembly, clean & oil but attention should be paid to the pre-mentioned requirements before this is carried out.

Should you have any further queries, please don't hesitate to get in touch with me, thank you

Yours Sincerely

Paul Griffin
