Dear Dr. Cox:

In reply to your recent letter, please be advised we cannot furnish historical information on the missing Colt 41 caliber New Line revolver described in your letter.

The only records we have available pertaining to old Colt firearms are shipping ledgers which contain serial numbers. Unless the serial number of a Colt firearm can be furnished we are unable to locate shipping information or supply historical data.

If you will send us the serial number of the other gun in this set, perhaps we can locate information pertaining to both guns.

We are unable to inform you the number of New Line revolvers engraved or cased as this information is not readily available from our records.

Awaiting your reply we are,

Yours very truly,

Dear Mr Wagner

Enclosed is a \$6.00 money order for
historical information on a Colt
New Line 41 Caliber Rem fire revolver.
It is engraved and cased in a double
casing. Apparently it was purchased
by a James R. Wasson of the U S Army
in 1883. The second revolver is
missing out of the case. Do you
have in your shipping records the #
of the second revolver? Were many
New Line Revolvers engraved? Cased?

Very truly yours.

Dear Mr Wagon,
I rec'd your letter today (very nice) & am informed that I did not include the Ser # on the 41 Cal. R.F. The one still in the case is NO. 5381.

Are the 41 Cal New Line numbers in the same series as the 41 caliber Ithaca & Palau Rifle similar to the first line pattern? As do you have the highest number for a cal 41 new line & the highest number for the Ithaca or Palau model. Yours truly & gratefully.

Dear Dr. Cox:

Reference is made to your recent letter requesting historical information on Colt New Line revolver serial #7951.

Upon researching our records, we located the information listed below which describes this arm as originally shipped from the Colt factory in 1877.

Caliber	41 Center Fire
Barrel length	Not listed
Finish	Nickel
Type of stocks	Not listed
Sold and shipped to	B. Kittridge & Co.
Address	Cincinnati, Ohio
Date of shipment	December 10, 1877
Number of same type guns in shipment	9

This arm is described in the shipping ledgers as a New 41 caliber Center Fire with gate-long. Barrel lengths are not listed in the ledgers for the New Line models and we assume the word "Long" included in the description indicates this arm was shipped from the factory with four inch barrel.
