Dear Dave,

The New Police Revolver arrived a couple of days ago. Charges on this one revolver were \$6.50. Enclosed is a check for eighty cents difference between this and the \$7.30 which you paid on the first package. Incidentally, when the first package arrived, we had to pay an additional \$6.68 for a total of \$13.98 on that package alone. Railway express charges and air express charges are getting prohibitive. I will not send any guns unless I can send to a bonafide dealer by parcel post, insured.

All the guns shipped quite satisfactory. I hope you find some single actions to your liking.

Very truly yours,

Robert G. Cox

Dear Bob:

You have probably received the gun by now, but if you haven't you should receive it any day.

Since the carbine was shipped collect you may deduct the charges from the amount owed to me.

Respectfully,

David S. Woloch

Dear David:

The five guns were received on 8-16-68, and a letter written to you that day stating that the New Police .32 caliber, 2½ inch barrel, 95% blue, was not enclosed. I received an answer stating you would send it shortly but as yet have not received the gun or an answer to my last letter written on 9-8-68. Please explain and ship the gun immediately for my approval as per our original letter. As soon as the gun is received, a check will be sent to you for the express charges on the first package.

Very truly yours,

Dear Bob:

Upon checking our correspondence I find that you are absolutely right the 32 New Police should be part of the deal. I will mail it at my earliest opportunity and sorry if this situation has caused you any inconvenience.

Since this one is my error I will mail it prepaid, but I would still appreciate my check on the last REA shipment that was supposed to be paid by you.

Best Regards,

David S. Woloch

Dear Dave;

The guns arrived today by REA & all arrived safe, & in good condition. - only there were 5 instead of 6. You forget to send the lot 32 New Police 2 1/2" PBL 957, Blue. Circa 1904 which was priced at 50⁰⁰ in your list. Did you forget or is it in another shipment.

The 250⁰⁰ was for the 6 guns mentioned in my letter & also your letter.

Also what about old catalogs etc. do you have any, factory, letters on any of these guns?

Send the New Police in soon. If its as listed (957, Blue etc) then I will keep the lot.

Yours truly,
D. -

Dear Bob:

Enclosed is the 4" New Line 38, with case-hardened frame, blued barrel and cylinder, and ivory grips. The serial #8105 is stamped on the barrel, cylinder, and frame.

Ron Wagner is now researching this number, and assuming it can be found in the ledgers I'll see that a letter on the pistol is sent to you.

The brass tag enclosed is the collection number identification from the original owner's inventory. This gun belonged to S. L. Hutcheson, one of the old-time gun collectors, and a top Colt devotee for many years.

With best regards,

Sincerely

L. Wilson

Dear Dr. Cox:

Reference is made to your recent letter requesting historical information on Colt New Line revolver serial # 8105.

Upon researching our records, we located the information listed below which describes this arm as originally shipped from the Colt factory in 1876.

Caliber	38 Center Fire
Barrel length	Not listed
Finish	Blue
Type of stocks	Not listed
Sold and shipped to	Colt London Agency
Address	London, England
Date of shipment	June 26, 1876
Number of same type guns in shipment	61

This gun is described in the shipping ledgers as a New 38 caliber Center Fire with gate-long. Since barrel lengths are not listed in the ledgers for the New Line models we assume the word "Long" included in the description indicates this arm was shipped from the factory with a 4" barrel.

We trust the information supplied above will be of interest.

Dear Mr. Wagner,

Enclosed is a \$6 money order for historical information regarding Colt New Line revolver, serial # 8105 in 38 center fire caliber, four inch barrel length, ivory grips, blued finish and loading gate. I am particularly interested in verifying the caliber, ivory grips and four inch barrel length.

In going over these records, do you see other barrel lengths other than the four inch length and the standard 2 1/2 inch barrel length.

Very truly yours,

Robert G. Cox M.D.
