THE PARKER GUN

Reg. U. S. Pat. Off.

This gun was built with great care by experienced workmen; all parts have been subjected to close inspection. The barrels have been proof tested with a heavy overload and bear the Parker Gun Works proof mark.

It has also been carefully tested for accuracy and pattern. Targeting is done with regular factory loads and the record on the reverse of this card shows the shell length and shot size used in testing this gun.

We know it will please you.
