GUN ENGRAVINGS

Because of the great number of engraving variations the sizes of surfaces to be covered, and the number and size of inlays, the quoted prices for the illustrated samples are only average. They may vary from job to job, depending on customer's specifications. Cost of refinishing is included in price.

Our engravers can reproduce your own illustrations and designs.

Good German Engravers are unexcelled in skill and careful workmanship. Like in many highly skilled crafts, the old masters pass on, and very few young ones can equal the old guard.

Through our connections abroad we offer the services of some of the best remaining German Gun Engravers, employed by Kurt Jaeger. Their work is unsurpassed in tasteful design and perfect execution.

In this folder are a few samples. They can also duplicate your own pictures and designs. Delivery, depending on the type and amount of engraving will be from 2 to 5 months. We will be glad to furnish more details and special quotations on request.
