

# The Parker Gun

PARKER BROTHERS  
MAKERS

*Meriden, Conn.*

December 6, 2014

Parker shotgun, serial number 213790, was completed in 1925. According to Parker Bros. Stock Book No. 75, it was a GHE hammerless, 28-gauge. It featured Parker Special Steel barrels with a length of 26 inches. Its stock configuration was a capped pistol grip. According to Parker Bros. Stock Book No. 75, its specifications were: Length of Pull: 13 1/2", Drop at Heel: 2 3/4", Drop at Comb: 1 1/2".

The price listed in the 1925 price list for a GHE grade was \$123.75.

Parker Bros., Remington Arms Company Inc. and others repaired and reconfigured guns as a major part of the gun trade. Over the years, this Parker may have undergone changes to suit its owners, either at the factory or other competent facility. Complete factory return and repair records **do not exist** therefore our research team cannot comment, report, or have any responsibility for work performed. It is important to note that those Parker records remaining are hand written and show considerable fading from their age. The research committee has done its best to interpret and report our findings in answer to this request and assumes no responsibility for the recorded accuracy or other work completed.

Sincerely,

*Chuck Bishop*
