.22 MILITARY RIFLES & THE LEGENDARY P-08

THE AMERICANS

The New M16A1/22 . . .

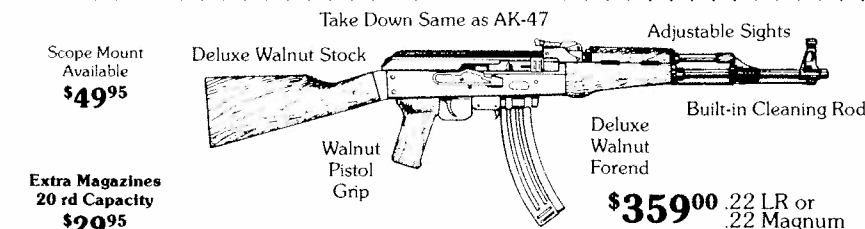

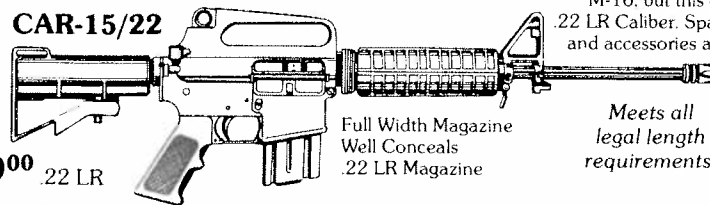

One of the Latest Models of the U.S. Army M-16 Rifle

The M-16, used by the U.S. Armed Forces. Now produced in .22 Caliber and we call it the M-16A1/22. Looks just like the real Colt M-16, but this one is in .22 LR Caliber. Spare parts and accessories available.

The most exciting new rifles produced since the M-16 was adopted by the U.S. Army

Extra Magazines
15 rd Capacity
\$29⁹⁵

\$359⁰⁰ .22 LR

THE RUSSIANS

AK-22 Available in .22 LR or .22 Magnum

The AK-22 Rifle. An amazingly accurate and faithful copy of the original AK-47 rifle. Used by the Russian Armed Forces in 7.62 x 39 and 5.45 x 39 and reproduced here in .22 Caliber. Hard to tell from an original AK-47, this .22 Caliber version handles just like its center-fire counterpart. Same heft, same feel; wood and steel, everything but the cost.

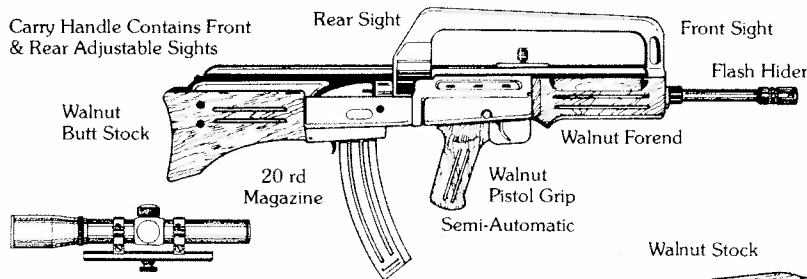

THE ISRAELIS

Galil .22 in .22 LR or .22 Magnum

The Israeli Combat Rifle. In service with the Israeli Armed Forces. Now produced in .22 Caliber. The Galil .22 Combat proven in center-fire, this .22 Caliber version is a dead ringer for its Israeli counterpart.

The French M.A.S. The newest French Bull-Pup Rifle. Recently adopted by the French Armed Forces in .223 Caliber and reproduced here in .22 Caliber. Probably the most popular "Bull-Pup" rifle in the world. A true short-rifle but meets all legal requirements.

THE FRENCH

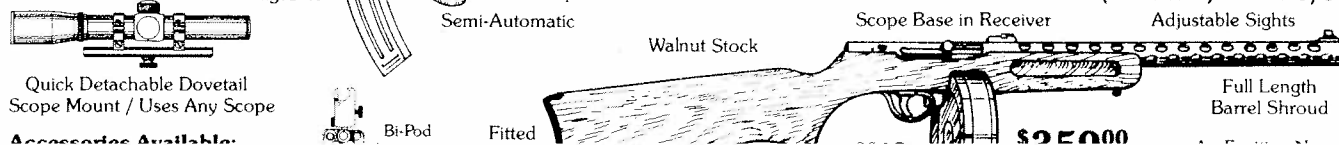

M.A.S. .22 Bull-Pup Design

High-Visibility for Safety

- Bright Red Base

New Optical Sight Capability .. Fits Any Mitchell High Standard Model

Trophy II showing optional Weaver Style Scope Base. The new base is Cantilever Style which positions any optical sight over the center of gravity of the Trophy II. No need to remove the base to use the pistol's iron sights. A specifically designed optical sight base made just for our Mitchell High Standard pistols. SCREWS directly into the barrel and cantilevers over the pistols center of gravity for optimum balance. The Weaver style base allows the use of cross-hair scopes or the popular red-dot type scope. Iron sights can still be used with the base installed.

Mitchell Arms Sharpshooter II Model

5 1/2" Bull Barrel

Features:

- "Military" Grip Style
- 5 1/2" Bull Barrel
- Standard Trigger
- Slide Mounted Adjustable Rear Sight
- All Over Blue Finish or Stainless Steel

SINGLE ACTION ARMY REVOLVERS

... in the Spirit of Bat Masterson

A little over a hundred years ago, when Bat Masterson was helping tame the West, he wrote a letter to Colt because he wanted to have them make a very special revolver for him.

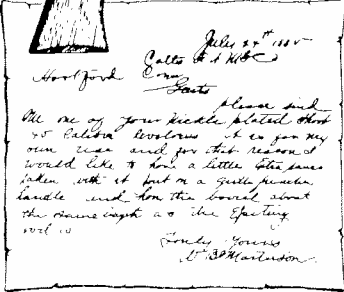

We think so much of his gun that we've recreated it almost exactly as his was ... the most notable exception being that we used one piece walnut for the stocks (cause we can't find gutta-percha). Otherwise, it's as close "as the law allows" and it's absolutely beautiful.

Caliber: 45 Colt
Barrel: 4 3/4"

Finish: Full Nickel Plated
Grips: One Piece Walnut

This revolver is a part of our regular product line; not a so-called limited edition model. We've taken the pains" with it, referred to in his letter. You can buy one for only \$439.00, just like his.

Available in pairs with consecutive serial numbers.

July 20th 1880
Colt's & Co
New York
Dear Sir
I am of your nickel plated 45 Colt revolver. It is for my own use and for this reason I would like to have a little bit more taken with it put on a quality handle and then the barrel about the same length as the sporting 1873-74
Sincerely
Bat Masterson

BAT MASTERSON MODEL FEATURES:

Safety - All models incorporate patented hammer-block safety mechanisms built into hammer assembly in addition to traditional internal safety notch.

Accuracy - High grade steel barrel honed for accuracy with smooth lands and grooves; precise alignment between cylinder and barrel.

Action - Traditional single-action with safety position and half-cock position for loading/unloading.

Sights - As the original revolvers were made. Blade front sight. Rear sight is notch in frame.

Frame - Forged steel, fully machined with nickel-plating. Backstrap is two piece style like its frontier counterpart and bright nickel plated.

Grip - One piece solid walnut grip built in the style of the old black powder revolvers.

Finish - Bright nickel plated all over.

CIVIL WAR CLASSICS ...
Modern Reproductions of Legendary Winchester Rifles

THE 1858 HENRY RIFLE ... Abe Lincoln's Rifle

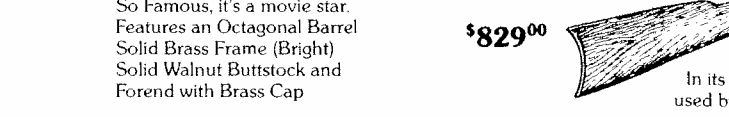

The one that started it all ... reproduced here in Cal. 44-40

\$99900

THE 1866 WINCHESTER ...

So Famous, it's a movie star. Features an Octagonal Barrel Solid Brass Frame (Bright) Solid Walnut Buttstock and Forend with Brass Cap

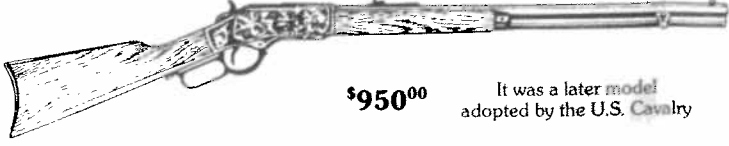

\$82900

Perhaps the most famous of them all ... made in Cal. 44-40.

In its day it was widely used by the U.S. Cavalry.

THE 1873 WINCHESTER ...

\$95000

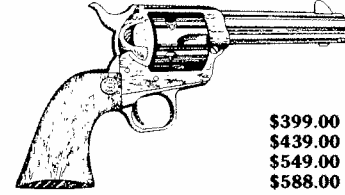

It was a later model adopted by the U.S. Cavalry

Mitchell's Famous Single Action Army Model

The Mitchell Arms Single Action Army Model Revolver is a modern version of the original "gun that won the West" adopted by the U.S. Army in 1873. Faithful the original design, these revolvers are made of modern materials and use the very latest technology that just wasn't available back then. A special safety device is built into the hammer assembly in addition to the traditional safety.

Now Available In .45 ACP Caliber!!! Now you can have it your way ... Single or Dual cylinder Models, Blue or Nickel.

- 45 Colt only or 45 Colt/45 ACP Blue/Color Case Frame
