

Here is my good old Spiller & Burr # 203, definitely seen the "Elephant".
Carried many years, many repairs and "Rode hard and put away wet".
Amazing holster wear: Front sight worn down to a nub,
and Crown of the muzzle rounded away.
Good "SPILLER & BURR" on the barrel.
Excellent " C.S. " on the frame.
284 on cylinder pin. Rammer assembly probably Whitney.
Cryptic M on right frame and Cryptic W over maybe V on bottom of right grip.

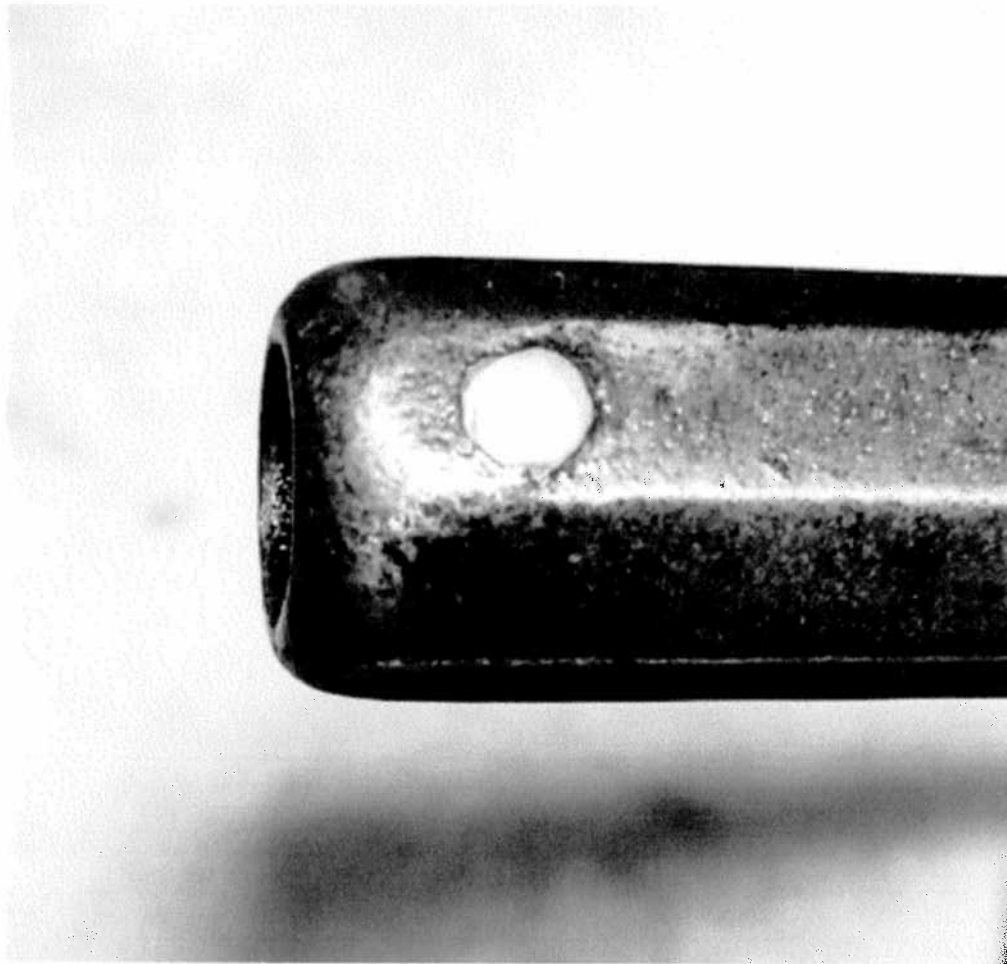

Great C.S. on the frame.
