Thank you for inquiring about this fine gun. According to my memory Dick Clark sent this Colt to us, in the late 1980's, for a complete exhibition engraving job. David Perdue and I collaborated on the work and produced a fine example of a first generation revolver. The gold inlays were done by David and I did the other engraving. A similar job done today would cost approximately \$10,000. If you look under the hinge pin, you will see the initials ODE/TG, which stands for Old Dominion Engravers/Tim George.

I hope this letter adds to your value of this firearm. Thank you again for the inquiry.

Sincerely,

Tim George

David Perdue
