The Mauser pistol, Serial #. 546322, black holster and extra clip that you have in your possession was brought to this country by my father whose was in France during the Germany invasion at the end of WWII.

I do not know the circumstances of his obtaining the pistol however, as an infantry Lieutenant in the U.S. Army he did participate in the invasion.

To the best of my knowledge, my father never fired the pistol.

Sincerely,
Judy White
