After examining, and researching your model 70 SIN 388952 I have found the following:

Class 4 Special Order Target Model with
Standard stock
30-06 Springfield
Type 2 receiver, clover leaf tang, safety latch without cylindrical leg. Early
receiver made in the 1947-48 time frame.
Bolt number matches receiver; 388952
Serial Number is from 1956

I hope that this information is helpful.

Sincerely yours,

Robert Rich
