This letter is to describe the Kimber Model 89 Big Game Rifle pre-production rifles you just purchased.

These rifles are the first run of 50 to come out of our plant. They contain several features that will be changed in subsequent runs. They therefore represent unique collectors pieces. They can be identified by the following features.

1. Bolt handle is slightly smaller than production model.
2. A small P is stamped on the receiver in front of the bolt stop.
3. The bolt head contains a guide that is being removed from the production models.
4. The barrel is stamped with Kimber of Oregon, Inc., Colton Oregon, U.S.A. Production models will be stamped with the Clackamas address.

I think you'll agree these rifles represent outstanding value.

You have been a great supporter of Kimber for many years and I'm pleased to be able to furnish these rifles to you on an exclusive basis.

Sincerely,

Greg Wayne
