RE: Sear Number H2751

This letter is to certify that TSC Machine in Ruther Glen, Virginia performed the following work on March 22,2017.

TSC Machine installed an excellent condition Fleming Firearms Sear, Serial Number H2751 into a 4 position, 3 round burst trigger pack. This is a complete package with the sear installed in a burst pack and comes with all three , 4 position 3 round burst plastic housings and ejectors in 9mm, .223 and .308.

This pack will easily and legally convert any semi auto HK 9X gun into a machine gun. To include the following: HKSP89, HK94, 9mm. HK93, .223 and the HK 91, .308 and all the variants to function in Full Auto. This package will function perfectly when used with factory german full auto carriers in factory german HK guns.

This is an official document which must be embossed with the official TSC Company Seal.

This work was performed by Mike Woodward, Gunsmith of TSC Machine.
