Gents

You will remember that last year you furnished me with a "Creedmoor Rifle" pistol grip" with the assurance that it could not be excelled by any other weapon

It is reliable up to 800 yards and perfectly sure at 500 yds but is unsatisfactory at 1000 yds The Calibre is 44/100. Since my purchase I understand that you recommend 45/100

Please inform me

C. M. Carleton
Norwich
10/19 Oct 17/77

if you can change the barrel or shall I have to buy an entirely new gun also what the expense will aggregate to me.

This gun is light and I want one as near 10 lbs but not to exceed that weight

Very Respt'fully
C. M. Carleton

Gents.

Your favor. of 19th at. hand and in reply would say that I will take advantage of your kind offer to exchange my 44/100 bore rifle for one of your new 45/100. gratuitously

And if this does not come up to my ideas will then order a new gun complete.

The Remington Rifles in our club exceeds the Sharps at long range nearly every time in the same hands.

I have this day shipped you my gun with all equipments. by express prepaid

Please return as soon

CHAS. M. CARLETON, M.D.,
27 BROAD ST.
NORWICH, CONN.

as compelled by express
at my expense.

Yours Very Truly
C. M. Carleton
Pres't Stonich Rifle Club.

P. S.

At my last shooting with
my present gun I made (72)
Seventy two out of a possible of
(75) Seventy five at 500 yds
and on one of the occasions
made (74) Seventy four. I.
consider it a perfect mid range
gun but as I have one other
gun equally good at that distance
I want this for long range

Nov. 10th '77.

Gentlemen,

The rifle and ammunition are received in good order.

Your treatment of me has been gentlemanly beyond what I could have reasonably expected.

It will give me great pleasure to speak a good word for you whenever occasion presents.

Very truly yours

Chas. M. Carleton.
